

Climate change is a global challenge, and Singapore is taking firm actions to do our part to build a sustainable future.

The Singapore Green Plan 2030 is a national sustainability movement with ambitious and concrete targets, which builds on our existing climate mitigation and adaptation measures.

It is a living plan which will evolve as we work with Singaporeans and partners from all sectors to co-create solutions for sustainability.

Our collective action will make a difference. Let's build a greener and more liveable home together.

1. City in Nature

A Green, Liveable and Sustainable Home for Singaporeans

- Add 1000ha of green spaces and 160km of park connectors
- Every household will live within a 10-min walk from a park
- Plant 1 million more trees across Singapore by 2030

2. Sustainable Living

Strengthen Green Efforts in Schools

- Work towards two-thirds reduction of net carbon emissions from schools sector by 2030
- At least 20% of schools to be carbon neutral by 2030

Green Commutes

- 75% of all trips to be on mass public transport by 2030, up from 64% today
- Triple cycling path network to 1,320km by 2030 from 460km in 2020

Green Citizenry: Less waste and consumption

- Reduce amount of waste to landfill per capita per day by 20% by 2026, with the goal of reaching 30% by 2030
- Encourage water conservation and water efficient practices for households and industries

3. Energy Reset

Cleaner-energy Vehicles

- Require all newly-registered cars to be of cleaner-energy models from 2030
- Expand network of electric vehicle charging points to 60,000 by 2030

Sustainable Fuels

- Promote sustainable fuels for international trade and travel

Greener Infrastructure & Buildings

- Raise sustainability standards of our buildings through the next edition of the Singapore Green Building Masterplan

Sustainable Towns & Districts

- HDB Green Towns Programme to reduce energy consumption in HDB towns by 15% by 2030

Green Energy

- Quadruple solar energy deployment by 2025
- Green Singapore's electricity supply by tapping on cleaner electricity imports

4. Green Economy

Sustainability as New Engine of Jobs and Growth

- New Enterprise Sustainability Programme to help local enterprises adopt sustainability practices
- Develop Singapore as a carbon services hub, and as a leading centre for green finance in Asia and globally
- Develop Jurong Island to be a sustainable energy and chemicals park

New Investments to be Carbon and Energy Efficient

- Seek out new investments that are among the best-in-class in carbon/energy efficiency

5. Resilient Future

Safeguarding our Coastlines against Rising Sea Levels

- \$5b dedicated to coastal and drainage flood protection measures
- Complete engineering design & implementation plans for coastal protection measures at East Coast, Lim Chu Kang, Sungei Kadut, & Jurong Island by 2030

Safeguarding Food Security

- Develop the capability and capacity of our local agri-food industry to produce 30% of our nutritional needs locally and sustainably by 2030

Keeping Singapore Cool

- Moderate the rise in urban heat with cool paint and by increasing greenery
